Avebury Mews

Lockable gate to conservation area

FINCHLEY PLACE

The homes at Avebury Mews and Finchley Place enjoy direct access to a designated site of nature conservation via a secure, lockable gate.

This stunning green space has a long history as a duck pond and provides an excellent habitat for breeding birds.

A diverse range of wetland plants can be found at the water's edge, including Yellow Flag and Water Plantain, with white Water-lillies on the pond.

Among other trees, Crack Willow and Almond Willow, provide shade and add to the beauty of the area.

A surrounding footpath dotted with benches provides a lovely place for a stroll and somewhere quiet to sit and reflect.

This tranquil little-known haven is right on the doorstep, just the other side of a secure gate.
